

CODSOFT UX/UI DESIGN INTERNSHIP

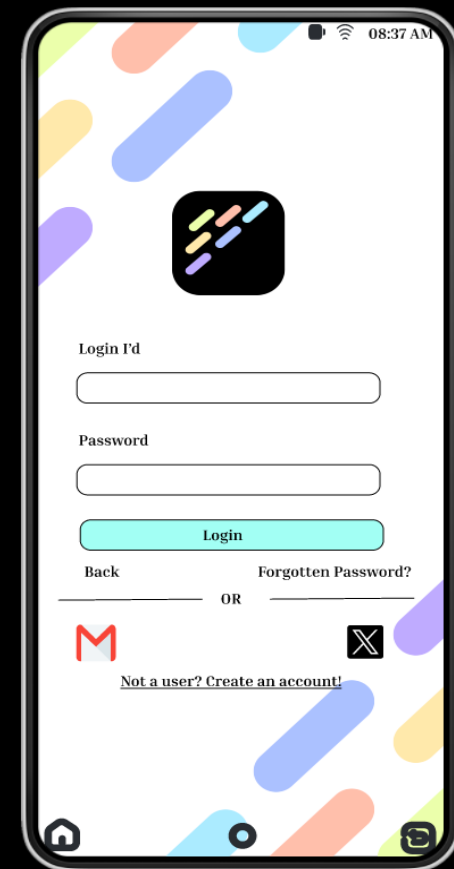

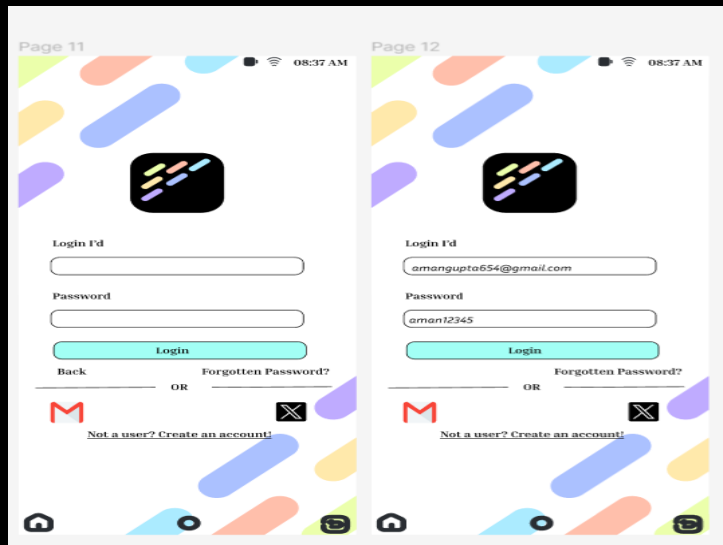

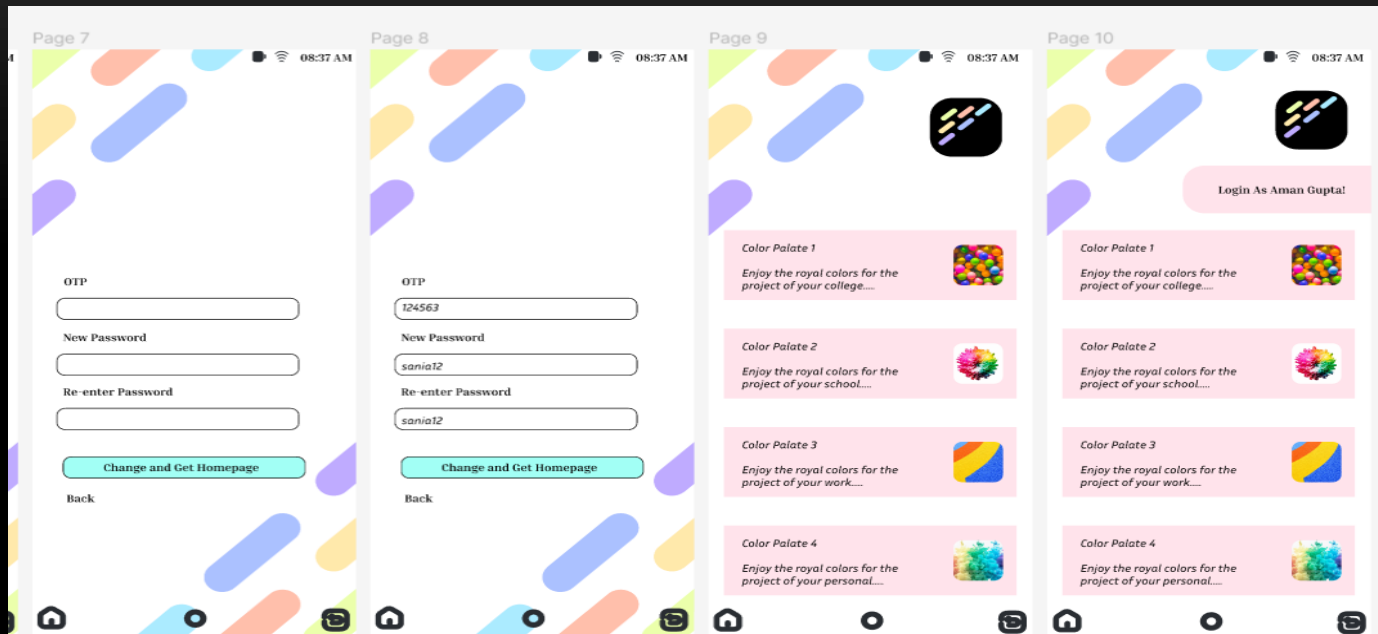

By Rashmi Kiran

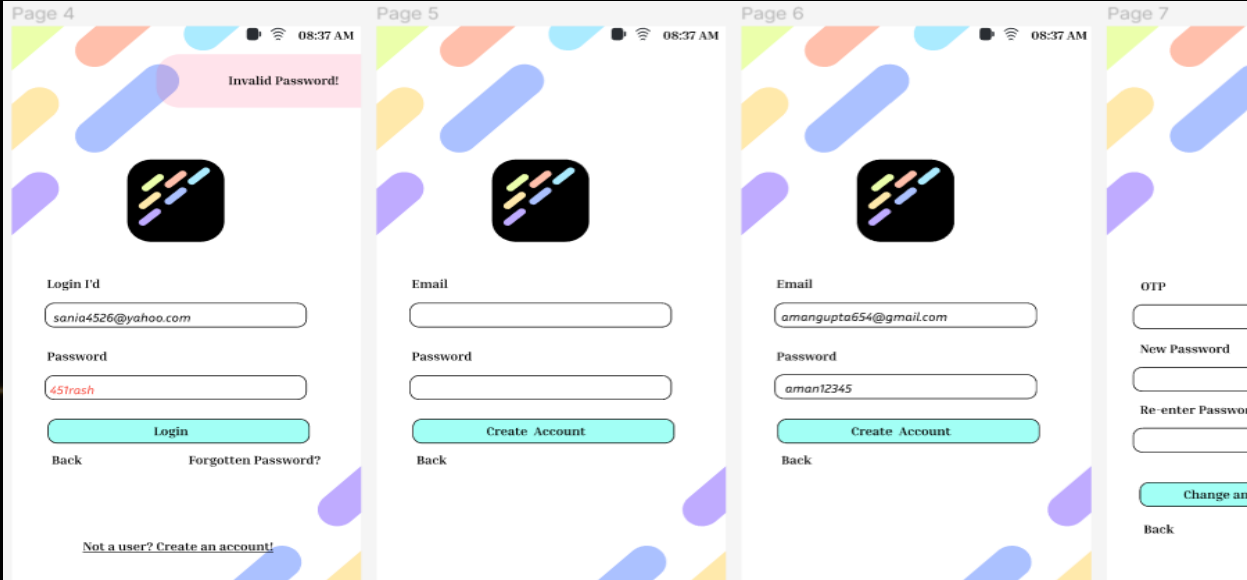

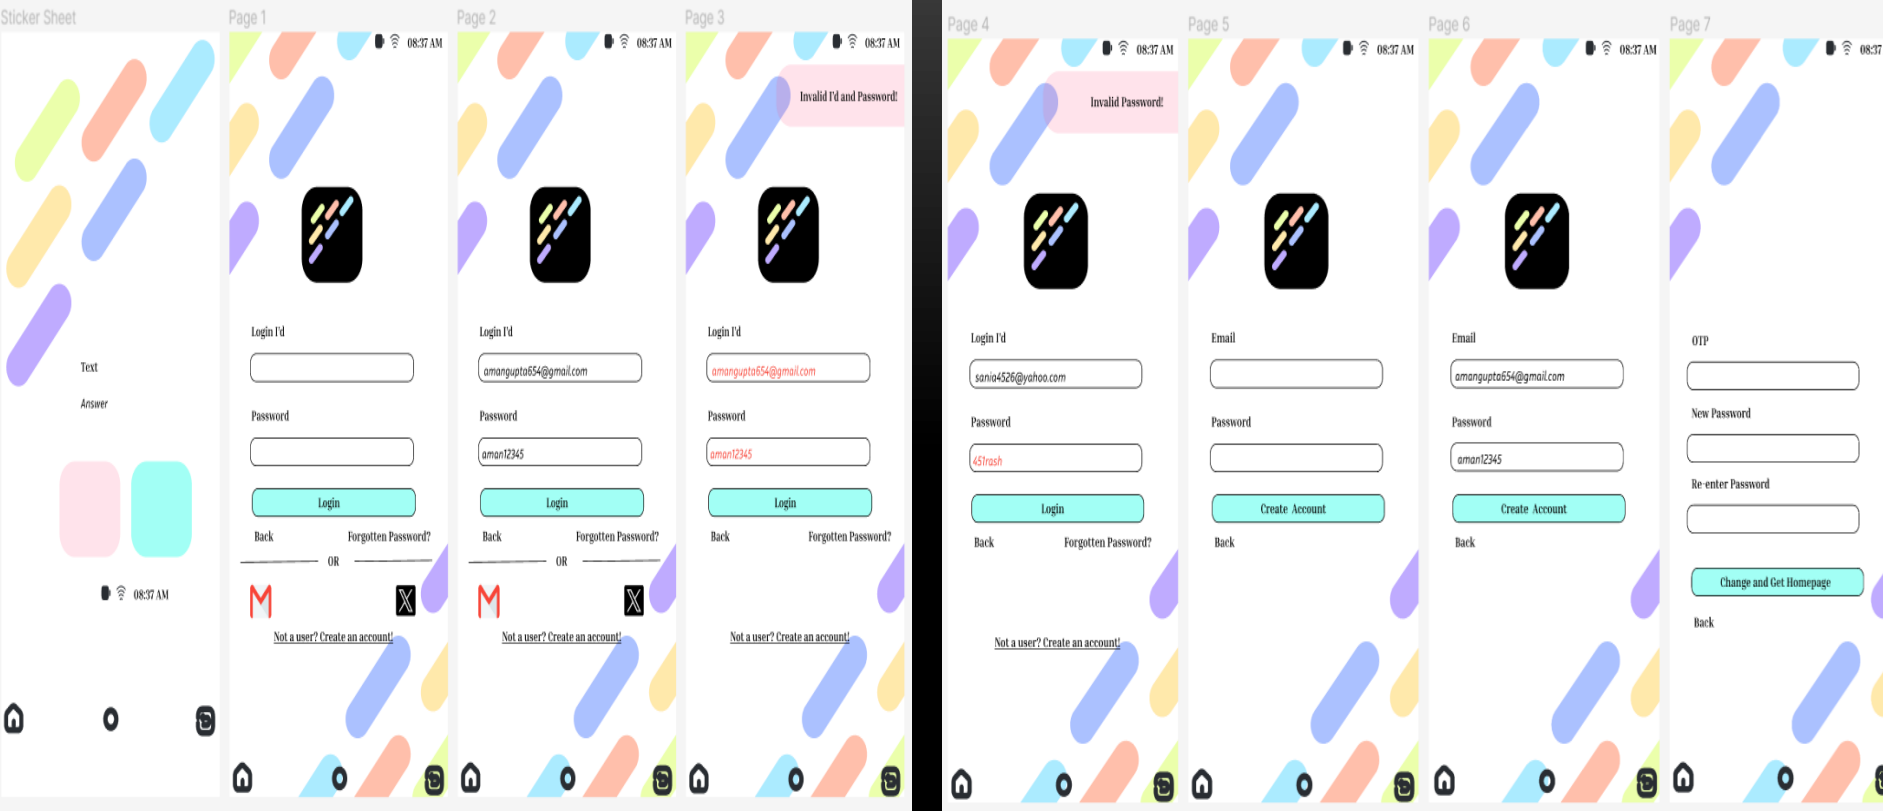

An internship that will help you grow with four task that is been provided.

TASK 1: MOBILE APPLICATION SIGN-UP FLOW

- A mobile app signup flow is the process of users creating an account and signing up for an app. The goal of a good signup flow is to make it easy and quick for users to sign up, while also collecting the necessary information from them.
- The mobile app signup flow can have three conditions: first when account is not created, second when invalid ID or password is added, and lastly when we enter the correct credentials.
- There are three scenarios that we might encounter:
 1. Invalid ID and Password: If we use the email amangupta654@gmail.com and password "aman12345" and it is invalid, we will create a new account. Once the account is created, we can access the homepage.
 2. Invalid Password: If we enter a valid email ID but an invalid password, we will receive an OTP on the registered email address to reset the password.
 3. Login via Email and Twitter: We can log in using either our registered email ID or Twitter account.
- LinkedIn Post: https://www.linkedin.com/posts/rashmi-kiran-uidesignercumapoet_uxdesign-uidesign-firsttaskcomplete-activity-7118847854554574848-LBYH?utm_source=share&utm_medium=member_desktop

TASK 2: EMAIL TEMPLATE

- An email template is a pre-designed email that can be used to send out marketing or promotional emails. The goal of a good email template is to make it easy and quick for businesses to send out emails that look professional and engaging.
- It's a website that helps with digital marketing services like SEO, Content Writing, Keyword, and all other things.
- We have an email template that can assist you in subscribing to our newsletter and utilizing our company's services, which include content writing, copywriting, SEO, and analytics. You can subscribe to the newsletter by providing your email address. Additionally, you can provide your email address and specify the service you require, and our company will contact you shortly. We have provided an email ID through which people can contact our company.

TASK 3: RESTAURANT MENU

- A restaurant menu UI/UX project is the process of designing a menu that is both visually appealing and easy to use. The goal of a good restaurant menu is to make it easy for customers to find the dishes they want, and to encourage them to order more.
- A Restaurant Menu that is made for the small restaurant which has few options, that is basically for small cafes where people meet.
- This is the restaurant menu. It is not fully automatic, but rather semi-automatic. It is an electronic menu, which means you can access it on your device. Once you have decided what to order, you can call the waiter by clicking on a button provided on the menu. We can customize the menu by editing the prices, food items, and descriptions according to the restaurant's preferences. The menu is user-friendly, with easy navigation and a visually appealing design.

JUNKIE MENU

Burger

A burger, short for "hamburger," is an iconic and beloved culinary creation enjoyed worldwide. It typically consists of a ground meat patty, often made from beef but sometimes from other meats or plant-based alternatives, placed inside a sliced bun.

80 INR

The patty is usually seasoned, grilled, or fried to perfection, offering a juicy and flavorful center. Burgers are highly customizable, allowing for a wide range of toppings such as lettuce, tomato, cheese, onions, pickles, and various condiments like ketchup, mustard, and mayonnaise.

85 INR

Whether you prefer a classic cheeseburger, a gourmet creation with unique ingredients, or a vegetarian or vegan option, the burger embodies the concept of a handheld, satisfying meal that brings people together to enjoy delicious flavors and textures.

Ice-cream

Ice cream is a beloved and timeless dessert that has delighted people of all ages for generations. This frozen treat is known for its creamy, luscious texture and a myriad of flavors that cater to a wide range of tastes and preferences.

85 INR

Made primarily from a mixture of milk, cream, sugar, and sometimes egg yolks, ice cream is churned and frozen to perfection. Its appeal lies not only in its cool, refreshing nature but also in its versatility – it can be enjoyed in a cone, cup, or as a topping for various desserts.

80 INR

Whether you savor classic flavors like vanilla and chocolate or venture into more exotic options like salted caramel or mint chip, ice cream is a delightful indulgence that brings joy and comfort on hot summer days or any time when a sweet, cold treat is in order.
